April 27, 2021

Dear Chair DeFazio and Ranking Member Graves,

I am requesting funding for pedestrian pathways in surface transportation reauthorization legislation. The project sponsor is the Village of Palm Springs and the project is located in Palm Springs, FL.

The funding is designated for a Pedestrian Pathway System to be constructed in phases to provide 6.7 miles of an interconnected, pedestrian-friendly pathway connecting most of the Village's parks and recreation facilities, Village Hall, Police and Fire Stations, other neighborhoods, and transit stops. The pathway will be enhanced with pedestrian amenities such as benches, water fountains, distance markers, and trail information boards.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: The entire system will be ADA compliant/accessible to serve those with unique abilities, those who are transportation disadvantaged due to limited access to automobiles, and the Villages senior population.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Lois Frankel  
Member of Congress
